**Re: Resolution - Cannabis location**

---

Resolution: LUPC voted 7-0-0 to request that the city analyze the potential of overconcentration of marijuana dispensaries and growing facilities in M zones, and possible loss of land for needed neighborhood services.

Facts and background:

1. If demand for locally-produced marijuana increases significantly, the demand for M zoned land may increase significantly.
2. Only a small portion of M zoned land is in the westside.

Findings and justification:

1. The community needs land in the local vicinity for sale of goods and services like car repair, veterinaries, lumber/ hardware, etc. Otherwise residents will have to make long drives to shop.
